## LIMITED WARRANTY

### **LIMITED WARRANTY:**

**for P-Metric, Light Truck, Auto Passenger and Performance Tires and ST Radials.**

### **WHO IS ELIGIBLE?**

Eligibility is contingent on meeting all the following criteria:

- Your AMERICUS tires were purchased on or after January 1, 2012.
- Your AMERICUS tires are used ONLY on the vehicle on which they were originally installed in accordance with vehicle manufacturer's designations found in the vehicle owner's manual.
- You are the owner or authorized agent of NEW AMERICUS P-Metric, Light Truck, Auto Passenger and Performance Tires and ST Radials. (Light Truck tires are defined as all tires with the sidewall identification "LT")

### **WHAT IS COVERED AND FOR HOW LONG?**

#### **FREE TIRE REPLACEMENT PERIOD**

If an eligible AMERICUS brand passenger or light truck tires or ST Radials becomes unserviceable from workmanship, materials, road hazard or a condition other than those listed below during the first 25% of usable tread wear or one (1) year from date of purchase (whichever comes first), it will be credited back in the full amount of the original price.

#### **PRORATED ADJUSTMENT**

Tires not eligible for the free replacement that are removed from service due to a covered warranty condition will be replaced with a comparable new AMERICUS tire on a prorated basis for a period of five (5) years from the date of the original new tire purchase, or when the tread-wear indicators become visible (worn to 2/32"), whichever occurs first.

#### **WHAT IS A COMPARABLE TIRE?**

A "comparable" tire may be either the same line and pattern of tire or, in the event that the tire is not available, a tire of the same basic construction and quality with a different sidewall or tread configuration. If a higher-priced tire is accepted as replacement, the difference in price will be at an additional charge to you. Any AMERICUS replacement tire provided pursuant to this warranty will be covered by the AMERICUS warranty in effect at the time of replacement.

### **TIRE MILEAGE WARRANTY**

The AMERICUS brand tires listed below are warranted against wear-out up to the mileage coverage shown in this section, even though the actual mileage you may get from your tires may vary because of driving habits and road conditions. Subject to the items originally covered below, if one of the tires listed in this warranty wears out before the listed mileage, the tire will be adjusted on a pro-rata basis. "Wear Out" means that the tire's tread has worn evenly down to the tread wear indicator's (2/32nds of an inch of tread remaining). "Pro-Rata" for this Tread Wear Out Coverage is measured by the odometer readings at the time of the tire's purchase, as printed on the original tire sales invoice, and at the time of replacement. In addition, you must present a completed rotation schedule contained in the original owner's copy of the tire's Limited Warranty / Tire Guide / Adjustment Policy.

TIRE(S) that have not been rotated at least every 6,000 miles as evidenced by a completed rotation schedule are excluded.

TIRE(S) in service for more than 60 months regardless of mileage are not covered.

### **TREAD LIFE LIMITED WARRANTY**

AMERICUS replacement tire listed below is warranted against pre-mature tread wear-out based on the following table:

- **AMERICUS / TOURING PLUS** - 60,000 Mile Limited Warranty
- **AMERICUS / SPORT HP** - 60,000 Mile Limited Warranty
- **AMERICUS / RECON R601** - 60,000 Mile Limited Warranty
- **AMERICUS / AT** - 60,000 Mile Limited Warranty

The tread life limited warranty applies ONLY to you if you are the Original Purchaser and the tires have been used only on the vehicle on which they were originally installed according to the vehicle manufacturer's recommendations. The tread life limited warranty does not apply to the following conditions: Tires used in commercial applications including but not limited to, police, taxi service, national account, government and contract sales. Tires supplied as original equipment. Tires that are installed on any vehicle other than the vehicle on which they were originally installed.

This TIRE MILEAGE WARRANTY DOES NOT include mounting, balancing, TPMS and applicable taxes and fees, which remain the customer's obligation and is NOT transferable.

You will receive a credit based upon the dealer's replacement price based on the percent-age of actual mileage driven to the mileage covered. Your replacement cost will be determined by dividing the actual mileage driven by the miles warranted and multiplying the result times the current selling price.

### **ITEMS NOT COVERED:**

- **Ride / Vibration** - Any ride / vibration complaint after the first 1/32nd of an inch of tread wear.
- **Improper Operation or Maintenance** - Includes, but not limited to improper inflation, or improper load/speed practices. In addition, improper tire rotation, wear due to improper vehicle alignment and tire alteration.
- **Deliberate abuse or vandalism.**

### **OWNER'S OBLIGATIONS**

You must rotate your tires with the prescribed rotation patterns as recommended by either your vehicle owners manual or your authorized AMERICUS Dealer.

When making a claim under the tread life limited warranty, you must present the original tire purchase invoice complete with tire description, mileage and the date the tire(s) were installed.

You must present the tire to be adjusted to an AMERICUS Retailer. Tires replaced as an adjustment become the property of AMERICUS Tires. You must pay any other applicable taxes and government-mandated charges on the services you order at the time of adjustment relating to any unique applications requiring mounting, demounting or balancing.

No claim will be recognized unless submitted on an approved claim form (supplied by an AMERICUS retailer) completely filled out and where you, the owner, or your authorized agent presented the tire for adjustment.

### **LIMITATIONS**

This limited warranty is applicable only in the United States and Canada.

### **WHAT ARE YOUR LEGAL RIGHTS?**

No Representative or Dealer has authority to make any representation, promise or agreement on behalf of AMERICUS, except as stated herein.

Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the tire manufacturer. Under no circumstances is this warranty a representation that a tire failure cannot occur. This warranty gives you specific legal rights and you may also have other rights that vary from state to state or province to province.

**DISCLAIMER:** THIS WARRANTY IS IN LIEU OF, AND AMERICUS TIRES HEREBY DISCLAIMS, ANY AND ALL OTHER WARRANTIES AND REPRESENTATIONS, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND NO OTHER WARRANTY OR REPRESENTATION OF ANY KIND IS MADE BY AMERICUS TIRES OR SHALL BE IMPLIED BY LAW.

**LIMITATION OF DAMAGES:** IN NO EVENT AND UNDER NO CIRCUMSTANCE SHALL AMERICUS TIRES BE LIABLE TO THE BUYER FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, LOST PROFIT, LOSS OF BUSINESS, LOSS OF GOODWILL OR REPUTATION, PUNITIVE OR OTHER DAMAGE, COST (INCLUDING FOR REPLACEMENT TRANSPORTATION), EXPENSE OR LOSS OF ANY KIND. SOME STATES AND PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

### **HOW DO YOU OBTAIN AN ADJUSTMENT?**

You must present the tire to be adjusted to an authorized AMERICUS service facility. Tires replaced on an adjustment basis become the property of AMERICUS Tires. You must submit your claim on an approved claim form supplied by an authorized AMERICUS service facility. The form must be filled out completely, where you, the owner, or your authorized agent presented the tire for adjustment.

### **AMERICUS Tire Care and Maintenance Guide**

To ensure satisfactory mileage and performance from your AMERICUS tires, give them a simple but frequent (at least monthly) check for proper inflation, along with even tread wear, and inspect your tires for any presence of damage.\*

### **MAINTAIN PROPER INFLATION PRESSURE**

Proper inflation pressure is essential for optimum tire performance, safety, and fuel economy. Check for proper inflation pressure at least monthly while tires are cool, tires will warm up from use after a number of miles so it's best to check before driving. Use a quality handheld accurate tire gauge. It's best to occasionally have your AMERICUS tires inspected by a professional tire shop, it is difficult to tell just by looking at radial tires whether they are under-inflated or over-inflated.

Furthermore, when operating a vehicle equipped with radial tires, as it is difficult to notice when a tire has gone flat or nearly flat since the "feel" of the vehicle may not always change significantly

\*Evidence of air loss or repeated under-inflation always requires expert inspection to determine the source of leakage and tire removal to determine reparability. To avoid injury, NEVER attempt to re-inflate a tire that has been run severely under-inflated.

Progressive air loss may result from a variety of conditions such as punctures, cuts, curbing, impacts or partial bead unsealing. Some installation or fitment causes for air loss are (1) incomplete bead seating, (2) tearing of the tire bead caused by a machine tool due to insufficient lubrication or improper adjustment, (3) leaking valve core or rubber valve components. These should be corrected or replaced when problems are detected and/or whenever tires are replaced.

Always maintain inflation pressure at the level recommended by the vehicle manufacturer as shown on the vehicle placard, on the vehicle certification label, or in the vehicle owner's manual.

Under-inflation is the leading cause of tire failure and may result in severe cracking, component separation or complete loss of air. Under-inflation reduces tire load carrying capacity, allows for excessive sidewall flexing and increased rolling resistance, resulting in potential heat build-up and mechanical damage. Maintaining proper inflation pressure is the most important thing you can do to help promote tire safety, durability and maximize tread life.

Over-inflation increases excess stiffness, which may deteriorate ride and generate unwanted vibration. Over inflation also increases the chances of impact damage.

### **DON'T OVERLOAD YOUR VEHICLE**

The maximum load capacity stamped on the sidewalls of P-Metric tires is reduced by 10 percent when used on a light truck, utility vehicle or trailer. Never fit P-Metric tires to light trucks that specify LT-type replacement tires.
